

ViP612™ DVR

Introducing an exciting new HD DVR from DISH Network.

We set the standard in high-definition digital video recorders (DVRs) when we released our award-winning ViP622™ DVR, which was followed up by our top-of-the-line ViP722™ DVR receiver. Now welcome the high-definition ViP612™ DVR, our advanced receiver that is an ideal solution for the HD home.

With superior imaging quality, startling life-like Dolby® Digital 5.1 Surround Sound, and the ability to pause, record and replay live television, the high-definition ViP612 DVR is DISH Network's newest addition to its state-of-the-art satellite receivers.

See TV like never before, and never miss your favorite shows with this advanced high-definition DVR receiver. It features cutting-edge MPEG-4 technology and boasts a powerful hard drive that lets you record up to 200 hours of standard-definition and up to 30 hours of high-definition TV (or a combination of both.) The integrated DVR features ensure you never miss a moment: pause any programming, including live TV, create instant replays or skip through recorded programs with the touch of one button.

One of Our Best HD DVRs Available Today

- Watch a program while recording another program, or record two live programs while watching a pre-recorded program
- Record up to 200 hours of standard-definition (SD), up to 30 hours of high-definition (HD) entertainment or a combination of the two¹
